

Low User Tariff

Business Electricity

Applicable to customers of SmartestEnergy Business Limited.

Effective from – 1st July 2024

Our Low User Tariff is designed for businesses with an annual usage of less than 5,000 kWh. This is lower than the average consumption of a business, meaning we are unable to offer our discounted contract rates. It is a variable tariff and rates are subject to change at any time, we will notify you in advance if this is the case.

In keeping with our other tariffs, the Low User Tariff remains competitive in comparison to other supplier equivalent tariffs. Rates are as follows:

Low User Tariff Rates

Meter Profile	Standing Charge (Pence per day)	Universal Rate (Pence per kWh)
03 - 04	75.0	22.9
00, 05 - 08	430.0	22.9

These prices may be subject to change at any time and notified where possible in accordance with our standard terms and conditions. All prices shown exclude Climate Change Levy and VAT, which will be charged at the prevailing rate.
